

## Christian Compost

When self centered man forgets the infinite "Holy One", Gods Kingdom often moves on!  
For God knows his kingdom thrives where his subjects follow his desires often found in his book called JOHN.

But before Gods calculated action is taken to achieve a barren end,  
He prepares an organic mixture that strips the soul for preparation in order to mend.

This Holy certified product works only if a disaster starts to take place,  
By allowing rejuvenation in this morally corrupt soul, to accept God's amazing Grace.  
You see I compare it to a volcano; its intense heat melts away the acid soil.  
The lava runs down the mountain strippin the soil of nutrition thus allowing God's plan not to fail.  
The ground eventually returns to bare rock now coated with a thick mantel of ash.  
God compares this parched ground with sin and a soul contaminated with trash.

When man rejects God, his matter becomes decayed and raw.  
His composition starts changing from sweetened grass to dry dying straw.  
God starts to fertilize this potent mixture with fruits of the spirit, enriching the soul.  
The molten rock that spewed out of these fissures left the soul barren,  
Now begins to grow a green patch, healthy and whole.

You see he fills the soul with nutrition, forming habits of the heart.  
Now the rich soil seeded with fruit of his desire brings enrichment for the empty soil to restart.

One element is calcium that exists in the bone,  
God knew it formed compounds to make plaster.  
So with love being produced in his mighty blend,  
He binds the healing to repair this disaster.

By combining two or more materials he knew the process of nourishing will occur.  
Finally he added carbon to the almost willing substance bonding the concoction,  
Even the devil could not deter.

Man's soul was now composted,  
The divine word planted firm.  
The soul increased fertile capacity,  
Intently watered and renewed daily on God's pure term.
